III. PURPOSE OF THE CONTRACT

To conduct this operation, the Director General of the NIS issues a call for applications to short-list candidates. The candidates who are selected will be trained in the Third General Census of Enterprises (GCE-3)

The General Census of Enterprises (GCE) is a national statistical operation carried out as a priority to provide detailed information on economic units (down to the smallest operational units) on economic entities. The analysis of this information is then transmitted to the President of the Republic and the Prime Minister, who use these data for the formulation and monitoring of national development policies. The results of the previous two general censuses of enterprises (NSDS 2013-2020) were also considered in the formulation of the National Strategic Development Plan 2021-2030 (NSDP 2021-2030).

I. BACKGROUND AND JUSTIFICATION

700 (seven hundred) candidates are required for this call for applications.
